## STREAMS

- Implementation review and support
- Mercury science
- COP-4 briefing

In the run-up to the fourth meeting of the Conference of the Parties to the Minamata Convention on Mercury (COP-4), that will convene in two segments – COP-4.1 online and COP-4.2 in-person –, the second season of Minamata Online provides an opportunity to better understand the policy and scientific aspects of the Convention.

Season 2 also responds to the valuable feedback from the over 1,700 participants that took part in last year's presentations, Q&A sessions and panel discussions. Join us again: registration available at the Minamata Convention website. <http://www.mercuryconvention.org>
